### About the C2C-CC

Enhancing road safety and traffic efficiency by means of Cooperative Intelligent Transport Systems and Services (C-ITS) is the dedicated goal of the CAR 2 CAR Communication Consortium. The industrial driven, non-commercial association was founded in 2002 by vehicle manufacturers affiliated with the idea of cooperative road traffic based on Vehicle-to-Vehicle Communications (V2V) and supported by Vehicle-to-Infrastructure Communications (V2I). The Consortium members represent worldwide major vehicle manufactures, equipment suppliers and research organisations.

Over the years, the CAR 2 CAR Communication Consortium has evolved to be one of the key players in preparing the initial deployment of C-ITS in Europe and the subsequent innovation phases. CAR 2 CAR members focus on wireless V2V communication applications based on ITS-G5 and concentrate all efforts on creating standards to ensure the interoperability of cooperative systems, spanning all vehicle classes across borders and brands. As a key contributor, the CAR 2 CAR Communication Consortium and its members work in close cooperation with the European and international standardisation organisations.

### Disclaimer

The present document has been developed within the CAR 2 CAR Communication Consortium and might be further elaborated within the CAR 2 CAR Communication Consortium. The CAR 2 CAR Communication Consortium and its members accept no liability for any use of this document and other documents from the CAR 2 CAR Communication Consortium for implementation. CAR 2 CAR Communication Consortium documents should be obtained directly from the CAR 2 CAR Communication Consortium.

## 1 Introduction

### Other (informational)

RS\_Refs\_00147

As references to other standards and their versions are essential information in the V2X area, CAR 2 CAR Communication Consortium is providing them in:

- this separate document to make the information:
  - explicitly available (not 'hidden' in the different requirement documents)
  - easily accessible (e.g. for alignment with other organizations)

## 2 Scope

### Other (informational)

RS\_Refs\_00148

This document holds all normative and informative references of the CAR 2 CAR requirement specifications of this release bundle.

## 3 References

### 3.1 Normative references

#### Definition

RS\_Refs\_00427

All documents, which are part of this release, are normative / informative depending on the document type, e.g:

- Requirement specifications are normative
- Explanatories are informative.

Please refer to C2CCC\_TR\_2000\_ReleaseOverview.pdf for further details on this.

All normative documents, which are not part of this release, are listed below.
