

CAR 2 CAR Forum took place in Dresden

For the 20th anniversary finally again in presence

After some interruption due to the pandemic, the CAR 2 CAR Forum finally took place again in Dresden on September 28 and 29. In addition, the CAR 2 CAR Communication Consortium celebrates its 20th anniversary, and the number of participants welcomed by General Manager Niels Peter Skov Andersen was correspondingly large. Dr. Volker Wissing, Federal Minister for Digital and Transport, sent his greetings via video message.

Over the two days the 190 experts from the field of vehicle-to-vehicle and vehicle-to-infrastructure communication exchanged views on the latest developments and challenges in their field. As the CAR 2 CAR Forum took place at the Rudolf-Harbig-Stadion in Dresden, it was possible to have the exhibition indoor as well as outdoor – such a great venue.

The highlight of the event, which was jointly organized by ITS mobility and the Sächsische Energieagentur – SAENA GmbH (Saxon Energy Agency), was the evening dinner at the Dresden Transport Museum, which invited participants to reflect on the development of our mobility systems from the past to the present. All different modes of transport – railway, road traffic, air transport, and shipping – were presented.

The CAR 2 CAR Communication Consortium has to emphasize that the cooperation with all participants was gorgeous and, therefore, we would like to express our appreciation to all speakers of the CAR 2 CAR Forum – particularly to mention and highlight are ...

- Geert Van Der Linden, Policy Officer at the European Commission, who gave such a brilliant keynote speech
- Thomas Kralinski, State Secretary, Saxon State Ministry of Economy, Labor and Transport
- Babette Böhme and Dr. Tilman Zimmermann-Werner, both Managing Directors, Sächsische Energieagentur – SAENA GmbH
- Steve Schneider, Managing Director, ITS mobility

Hopefully, we will meet in presence – again in 2023.
